2/21/2026: Meeting Overview

Meeting held at: 2:30 pm

Attendees: Kade A O'bar, Dennis Keithly, Ben Stidham, Christopher Chaiban

Meeting overview written by: Dennis Keithly

The purpose of this meeting was to divide tasks for the upcoming week. The tasks brought up during and after the 2/20/2026 meeting were brought up and are listed down below as well as their respective team members working on them.

Making dataset + determine AI inputs; Dennis, Ben, Christopher

Figma: Kade, Jose

Frontend Boilerplate: Ben

Backend Boilerplate: Christopher

Specs: All

Finalize AI tools: Dennis, Ben, Christopher

In addition to the general tasks being decided, the github project was discussed; how to populate it and how to view it. Upcoming tasks will be put on the github project. Sub problems can be turned into tasks at will. This will allow for a better look at when tasks began and who is working on them.
